

# My patients always ask me...

Samuel Shuffler, M.D.  
*Urologist*

**“If it were you, what would you do?”** If I was diagnosed with prostate cancer, knowing what I know, the da Vinci® surgical robot would be my first treatment choice.

A LOT OF MY PATIENTS shy away from traditional prostate surgery because they're afraid of the side effects.

USING THE DA VINCI'S high-definition optics, I can get to the cancer and have a better chance of sparing nerves that control urination and erection.
